Z3

Tested to withstand wind gusts
UP TO 220KM/H*

Z3 Side Channel

Z3

Protecta Z3 Side Channel

Built to withstand weather conditions unmatched by any other awning or external blind on the Australian market. PROTECTA Z3 Side Channel Awning is the ultimate in all-weather protection, wind, rain or sunshine, this system is built to withstand them all.

Create additional rooms & private spaces by extending your outdoor living while remaining protected from sun, wind, rain and those pesky insects.

Tested to withstand wind gusts
UP TO 277 KM/H*

LOCKABLE Bottom Rail[^]

Up to 5.8m[#] MAX Width

CENTRAL Locking
Bottom Rail System[^]

Due to the variances in applications, installations and wind events, wind results will constantly vary.

Uniline still recommend best, safe practice to raise your awnings when you are not at home and in any heavy weather conditions.

THREE OPERATING OPTIONS

Motorised

Spring

Gearbox

[^] Bottom Rail cannot be left locked in high wind conditions. Lockable Bottom Rail only available on Z3 Side Channel and Deep Channel Awnings up to 4m wide.

[#] Z3 Awnings between 4 – 5.8m – Gearbox and Motor operation only.

XL

Xtra Large

When you need to cover a wide open alfresco or living area, don't look past the Protecta Xtra Large awning. Capable of covering external openings including balconies and decks up to 5.8m wide.

This robust system is perfect for creating that indoor-outdoor living space. You even have the option of fitting a "weather strip" that slides into the bottom rail blocking those chilly drafts.

up to 5.8m WIDE

MS

Multi-Stop

A great value for money awning ideal for when you want to be able to stop and secure at any position for superior light and glare control.

Multi-stop is a manually operated spring awning with no exposed cords, cleats or wires, this system is simple and easy to use. To stop at any location, simply twist the bottom rail to lock into place.

The Protecta Multi-Stop is quiet to operate and provides ideal protection against the elements.

Spring

DC

Deep Channel

Where good looks and shading are your priority, our Deep Channel Awning System is the right solution.

Flawless in operation and robust in appearance, the Deep Channel system shares the same aesthetic and functional attributes as the Z3 system, minus the wind resistance technology.

Wire Guide

Designed for large openings through to patios and balconies, the wire guide will keep everything secure, even in light breezes.

A sleek and modern in design, our Wire Guide will compliment your exterior at an affordable price. Fitted with quality architectural stainless steel fittings, this awning brings an aesthetic appeal while wire cabling suspends and secures the awning.

Motorised

Gearbox

Pivot

Designed to deflect heat and glare while maximising light, ventilation and privacy within the home.

A sleek and stylish system adding new functionality and hardware with a streamlined front rail, designed to perform both horizontally and vertically. This gives you complete flexibility and style when paired with our compliment heavy-duty flexible joints. Comes in fixed arm and slide rail arm options.

Motorised

Gearbox

Guide Rail

Shade your windows from direct sunlight without losing out on fresh air, breezes and uninterrupted views.

Ideal for ground level windows, the slanted design sits out slightly from the base of the window, inviting breezes in while still maintaining optimum privacy and heat protection.

Spring

Straight Drop

Suitable for use as an external screen in low wind areas. This system is perfect for providing extra privacy & sun protection where required.

Great for areas like patios, pergolas and balconies. With optional fixing straps, you have the ability to secure on lower mounting points if and when required. The straight drop is a clever and simple solution making privacy easy.
